The Board of Directors
Roosevelt Island Operating Corporation

Dear Board Members:

We have audited the financial statements of Roosevelt Island Operating Corporation (RIOC), a component unit of the State of New York, as of and for the year ended March 31, 2016 and have issued our report thereon dated June 23, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter dated March 11, 2016. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Accounting Principles

Management is responsible for the selection and use of appropriate accounting policies. Significant accounting policies used by RIOC are described in note 1 to the financial statements. We noted no transactions entered into by RIOC during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

As described in note 2(k) to the financial statements, RIOC adopted Governmental Accounting Standards Board (GASB) Statement No. 68 - "Accounting and Financial reporting for Pensions - an Amendment of GASB Statement No. 27" and GASB Statement No. 71 - "Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68," during the year ended March 31, 2016.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting RIOC's financial statements were:

- Management's estimate of the accumulated depreciation is based on determining useful lives of assets.

- Collection of receivables - Receivables are stated at the amount management estimates will be collectible on outstanding balances. A valuation allowance is provided based on management's estimate of probable uncollectible amounts.
- OPEB liability - Management's estimate of postemployment benefits is calculated using assumptions for future years health care benefits and contributions on a pay as you go basis. Full detail of assumptions is located in note 10 of the financial statements.

We evaluated the key factors and assumptions used by management in determining that accounting estimates were reasonable in relation to the financial statements taken as a whole.

Significant Disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the combined financial statements were:

- The disclosure of pension plans in note 7 to the financial statements.
- The disclosure of commitments and contingencies in note 9 to the financial statements.
- The disclosure of other postemployment benefits in note 10 to the financial statements.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no such misstatements detected as a result of our audit.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a “second opinion” on certain situations. If a consultation involves application of an accounting principle to RIOC’s financial statements or a determination of the type of auditors’ opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as RIOC’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management’s discussion and analysis, the schedule of funding progress - other postemployment benefits, the schedule of entity’s proportionate share of the net pension liability, and the schedule of entity’s employer pension contributions which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the other supplementary information, which accompanies the financial statements but is not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

* * * * *

This information is intended solely for the use of the Board of Directors and management of RIOC and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

EFPR Group, CPAs, PLLC
